## Selectmen's Report

The following is a report of the activities of your Town Office.

The West Rutland Town Plan was adopted and gave us an opportunity to apply for and receive an Interim Zoning classification through the State of Vermont. This will hopefully be the start of other zoning regulations throughout the Town.

We have experienced some mechanical difficulties at the Sewage Disposal Plant and outlying pumping stations. These were mainly cared for by our local force. Litigation is still pending, depositions from concerned persons have been taken. Tentatively the case is scheduled for March, 1974. State and federal monies are still forthcoming.

The Sewer Plant Operator, Mr. Robert Grodeska resigned to accept a position in Proctor. Mr. Rodney Pease was employed in May to fill the position. In October Robert Geryk was employed as an assistant plant operator under a federally funded program.

Last year's summer work appreciated 6.5 miles of roads resurfaced. The summer brought an unexpected outlay of money for repairs as a result of the flood. Claims were filed for assistance through Flood Relief, approximately 40% of the claim was received after all bills were paid by the highway account. State Aid money for our highways was not received prior to 31 December, 1973. A new State Highway Bill was enacted in Legislature concerning the method of monies allocated to the Towns for road work, also this bill abolishes the elected office of Road Commissioner. This position will be appointive by the Board of Selectmen. An annual plan will be submitted to the District Engineer. For major construction a five-year plan may be submitted. Financial aid will be received quarterly, completion of either the annual or five-year plan is mandatory to receive financial assistance.

The Town Recreation Area will be completed this year. The building has been erected. BOR and State funds financing this project are forthcoming.

In conclusion, we convey our sincere "Thank You" for your cooperation in the past year.

## School Health Report

January, 1973 to January, 1974

Two immunization clinics, one held at St. Stanislaus and one for High School students, were held in February, 1973.

Our dental program, sponsored by the P.T.O. under the auspices of Dr. Edward Reiman and Mrs. Helena Waterhouse as our registered Dental Hygienist was held. 312 children received cleaning and fluoride treatments.

A T.B. Tine program was conducted for grades 1 and 8, both schools and many of our staff members participated in this also.

Audio-visual testing has been completed on grades 1 to 9 and 12 in the public school and grades 1-8 at St. Stanislaus this fall. Six children were referred to The Vermont Association for the Crippled for further hearing evaluations, three students are now under the care of our Vermont Hearing Clinic. Ten children have been referred to their own Ophthalmologists and Optometrists for further visual testing.

Five clinics have been held this fall, many immunizations given and physical exams were done on first grade students by Dr. Frank Smolinski assisted by School Nurse and Health Committee. Mumps vaccine was available to our students this year. Many children have been served in these clinics.

A vitamin program sponsored by the P.T.O. is in force in both schools, grades 1-8 in St. Stanislaus, grades 1-6 in Public School.

Fifteen of our seventh grade girls have been working as volunteers at the Pleasant Manor nursing homes this year, both in West Rutland and Rutland. They have done well, bringing much happiness to our elderly people.

Our throat culture program in conjunction with the Vermont State Department of Health continues to be in force and continues in the constant battle against Strep infections.

Fluoride rinses are done each week with the fifth and sixth grade students in public school who have parental permission. Fifty-eight students are participating in this program.

Many, many thanks to Dr. Frank Smolinski, Dr. E. Reiman, Public Health Department, State Department of Health, to all mothers who helped with our clinics, and in our audio-visual testing, and to all parents and friends of our children.

Respectfully Submitted,  
LORRAINE DAVIS, R.N.

The Rutland Area Visiting Nurse Association, Inc. offered a variety of Health Care programs to your community during the year.

Our program included Skilled Nursing, Physical Therapy, Speech Therapy, Occupational Therapy, Home Health Aide Service, and a Volunteer Nutritionist. We also coordinate with the State Public Health Nurses to provide pre-school clinics and handicapped clinics. A lot of our service is also aimed at health guidance and preventive teaching to families, new mothers, and infant care, etc. We provide instruction in the care of the patient in the home, as well as giving direct bedside care on a part-time nursing basis for you and your family.

All services are offered under the direction of the physician.

We continue to be certified under the Medicare Program. This gives your residents who qualify under the conditions of the Medicare Program our services.

Pre-Natal classes were started this year providing a service which is new to our area this year. This has proved to be a very needed program. The response has been overwhelming. Details of these classes can be obtained through our office.

Total bedside care visits were provided to your community during 1973 as follows:

Skilled Nursing	vs. 843
Physical Therapy	vs. 3
Home Health Aide	vs. 103

Many other visits for health teaching and evaluation of the need were made in your community during the year.

We are happy to be able to provide this service to your community, but to continue our programs we will need your help and support for the following year.

Respectfully submitted,

EVELYN MORGAN  
Director

## Report on Regional Planning

It is with pleasure that we submit the following Report of the Rutland Regional Planning Commission. Almost seven years have passed since the Commission was formed in March of 1967 and the year 1973 saw participation of twenty-four communities in the Rutland Region. West Rutland was represented by Anthony Tumielewicz as Regular Commissioner and Victor A. Seigny as Alternate.

Much of the Commission's efforts were directed toward assistance to member communities in the preparation and adoption of municipal plans and by-laws. Sixteen members have adopted plans while six more are in preparation. Nineteen are operating under locally prepared zoning regulations. Three more are being prepared with considerable RRPC assistance.

The Commission has increased its capability of assisting towns with the addition of an Assistant Director and a General Planner. Our resource center has been greatly expanded and catalogued — to provide a wide range of easily accessible materials on a variety of planning topics. This information is for the use of any citizen in any member community. We have begun a monthly newsletter distributed to all towns in the region. We have met with a variety of groups and individuals, worked closely on local needs, prepared a number of useful reports and generally encouraged participation in and awareness of the activities of the Regional Planning Commission.

The Regional Comprehensive Plan is undergoing an extensive update taking into account changes that occurred in the region as reflected in the 1970 Census. This will increase the importance of the Plan as a source of information and guide for growth or non-growth. Increased and continuing consideration is being given to economic factors in the region.

The Commission has acted as spokesman for member towns on the Land Capability and Development Plan and the various drafts of the State Land Use Plan. The cooperation of the Region's communities through the Regional Planning Commission increased the impact of individual opinions on these plans.

We thank the members and others for their support, both financially and of their time. We feel that the increased membership in the Commission reflects a realization that local and regional planning, though not easy, is necessary and helpful if decision making power is to be kept at the local level. Next year this will be an even more important issue. With your continued help, this goal and others as established by participants will be met. We invite you to visit your office at 27 Center Street.

Respectfully yours,

PERCY B. PHILLIPS, Benson, Chairman  
RUSSELL L. MORGAN, Executive Director

## Report of the Superintendent of Schools

I hereby submit my annual report as Superintendent of Schools to the taxpayers of West Rutland.

Joseph Zawistoski, high school Math teacher, semi-retired from classroom teaching, after many years of dedicated and unselfish service to the children of West Rutland. Fortunately, some of the youngsters will still have the benefit of Mr. Zawistoski's acumen, for he is working part time as the Director of Driver Education. Everyone wishes him a happy, healthful and rewarding retirement.

Bob Dylan, folk singer, tells us that, "The times, they are changing." It seems that he is correct as witnessed by the changes to which the American people had to submit in recent months; from the beef crisis to the political crisis, from the raisin shortage to the Middle East crisis, and now a serious energy crisis in gasoline and fuel oils.

At this time, the questions, "How severe is the energy shortage? How bad is it likely to get?," are undergoing intensive study in Washington, D.C. In high Government circles there is no unanimity. Some energy officials are talking of the need for fuel rationing and the economic advisors to the President are counseling against it. Regardless of the pros and cons, the West Rutland School System is being affected by the fossil fuel shortage. The school can only order an amount of oil for the school year 1973-1974 not to exceed the amount used during the school year 1972-1973 (one of the few mild winters in 10 years). Temperatures have been lowered and the fuel is being watched daily. At this writing nothing drastic has happened. Hopefully, the school will see the winter through.

Another visible change in the community is the new building addition being constructed next to the present school plant. This change was not dictated by agencies over which the community had no direct control. In fact, it was a self imposed change in order to better the existing educational system. You had near over crowded conditions and you chose not to ignore them. It wasn't raining when Noah built the Ark. These changes were effected at a cost to the community, but the changes will lead to a better quality of education for your children.

Today, more than ever, the cooperation of all is needed to maintain a high level of education in West Rutland. The School Board of Directors, Administrators and Faculty are dedicated toward this end and ask that you join in the effort. Lack of respect for property, for other people, and for oneself should not and cannot be condoned. Let us engender in each of our children a sense of responsibility and pride in the Town and the school system. Which in turn will mold students whose lives will have meaning; for education is not only a preparation for life but is life itself.

Education fails unless the three R's at one end of the school spectrum lead ultimately to the four P's at the other end — preparation for earning, preparation for living, preparation for understanding, preparation for participation in the problems involved in the making of a better community, state and nation.

Change sometimes strengthens the fiber of a people. I am certain that the change in the school facilities have bonded the home, school and community together. Thus, by improving the educational system, you have helped all of the institutions in West Rutland.

In closing this report, I wish to express my appreciation to the West Rutland School Board of Directors, the staff members, the town officials and last, but not least, the citizens for their cooperation during the past year.

Respectfully submitted,  
RICHARD F. ZANI  
Superintendent

## Report of West Rutland Recreation Committee

Our weekly meetings, regarding the summer program for 1973 began in April. As in the past, the selectmen, who control all funds, reviewed the proposals and allocated the necessary funds.

In May, with the cooperation of the Vermont Fish & Game Department and Mr. George Gray, we held a successful Fishing Derby at Sobotka's.

We hired Mrs. Joan Bishop and John Davis, Jr., both senior lifeguards and citizens of this town, to be directors of our eight week program, which began on June 25. Our equipment was returned in excellent condition and again this year, the Olympia Day format and picnic was held at Sobotka's.

Many families enjoyed the facilities at Sobotka's. Samples of water were submitted to the State Health Department and all tests greatly exceeded minimum standards. The Giancola Construction Corp. was awarded the contract for the bathhouse, which is presently under construction. By mid-summer, this project should be entirely completed.

We wish to publicly thank the selectmen and the many people who donated their time and efforts to our programs.
